

Script: Polytechnic

Terence Gower

The Polytechnic is divided into four sectors

ADMINISTRATION

CLASSROOMS

WORKSHOPS AND LABORATORIES

RECREATION FACILITIES

The campus was built according to the latest construction technologies.

Exterior / and interior walls / are made up of prefabricated / panels.

A typical lecture hall / seats two hundred and sixty five students.

Concrete and steel construction / allows for open-plan interiors / and flexible classroom layouts.

Open-web trusses / make longer spans, / allowing for larger workshops.

The unusual shape / of the auditorium building / is determined by its function.
